1. OVERVIEW

Labour Department(LD)'s E-Form Filler ("E-Form Filler") is part of LD E-Form Tools. It provides solution for filling LD E-Form ("E-Form") electronically. It also allows the application of digital signature on form submission to solve the traditional security problem. The software enables form filling, form signing and form verification.

2. SYSTEM REQUIREMENTS

2.1. BASIC REQUIREMENTS

To use E-Forms, your computer must comply with the following basic requirements:

- Pentium (Celeron) or above processor;
- Memory not lower than 256MB RAM;
- Running Microsoft Windows 7/8/10 as operating system;
- Google Chrome, Mozilla Firefox or Microsoft Edge; and
- *Suitable smart card reader and related driver (Only applicable to users who wish to use the digital certificates embedded in Smart ID Cards to sign the E-Forms. For details of the features and specifications of suitable smart card reader and related driver, please refer to the related webpages of the Hongkong Post <URL:<https://www.hongkongpost.gov.hk/product/eproduct/reader/index.html>>)*

To obtain better performance, computers equipped with Pentium 4 or above processor with at least 512MB RAM are highly recommended.

2.2. DIGITAL CERTIFICATE

To sign E-Forms electronically, you should make use of a valid digital certificate issued by recognised Certification Authority in Hong Kong. E-Form Filler supports the digital certificates installed in the following media:

- a. Smart ID Card (Please refer to [Section 2.1](#) and [Section 3.1](#). These two sections stipulates the system and software requirements which the computer should comply with if users are going to sign the E-Forms by using digital certificates embedded in Smart ID Cards);
- b. P12 or PFX file (i.e. digital certificate stored in harddisk or floppy disk); and
- c. Computer System.

2.3. INTERNET ACCESS AND E-MAIL ACCOUNT

Should you wish to download and submit E-Forms through the internet, you must possess an Internet account with HTTP (browser) and SMTP (e-mail) features.

3. SOFTWARE REQUIREMENTS AND DOWNLOADING OF E-FORM

3.1. SOFTWARE REQUIREMENTS

To operate E-Forms, your computer should be installed with the following software:

- a. E-Form Filler* (a software tool for viewing and filling the E-Forms);

Public Forms

Public Forms of the Labour Department (LD) on Government Forms Website

Viewing and printing of forms require the use of software appropriate to the format of the form file. "LD E-Form" format, which allows you to fill in the form on screen and submit the completed form electronically, is also available for some of the forms. Many of these software viewers are available free from the Internet. To access the public forms of LD, please click [here](#) and look up "Labour Department" using the search engine.

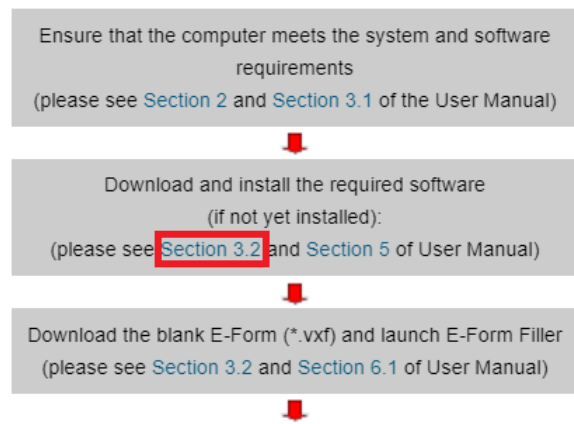

- Right Click the E-Form icon  and click "Save Link as..." to download the required E-Form.

5. In order to acquire the required E-Form Filler Software. Please scroll down to the section of "Work Flow of Using LD E-Form" and click Section 3.2. And then scroll down to Section 5, download "E-Form Filler v3.0(32-bit) if the Operating System which will install the software is 32-bit, download "E-Form Filler v3.0 (64-bit) if the Operating System which will install the software is 64-bit.

Work Flow of Using LD E-Form

You could download any E-Form file you are interested by simply pointing the cursor to the object and clicking it. The downloading process will commence then.

The software available for downloading includes:

- E-Form Filler v3.0 (32-bit);
- E-Form Filler v3.0 (64-bit).

Once you choose to download the E-Form Filler, you would like to open the file or save it.

The E-Form Filler is an installer program. You need to install it prior to actual usage of E-Form. Please refer to [Section 5](#) and [Section 6](#) for detailed guides on the installation and operation of the E-Form Filler.

Once you choose to download the E-Form Filler, a dialog box will be popped up asking you whether you would like to open the file or save it.

The E-Form Filler is an installer program. You need to install it prior to actual usage of E-Form. Please refer to [Section 5](#) and [Section 6](#) for detailed guides on the installation and operation of the E-Form Filler.

4. E-FORM CONCEPT

4.1. WHAT IS E-FORM?

E-Form is the electronic format of a LD's form. It allows user to fill in the data direct on the computer screen and apply a digital signature to ensure its integrity.

E-Form supports input text field, radio button fields, checkbox fields, strike-out fields and combination fields. The fields can be grouped into sections, if necessary.

4.2. COMPONENTS OF E-FORM

E-Form consists of the following components:

- Form Layout Component - the document and the form component
- Form Logical Component - the work flow and form section component
- Digital Signature Component - the digital signature bags
- Digital Certificate Component - the creator's certificate and encipherment certificate

E-Form Filler is the software program designed for verifying, filling and signing E-Form.

5. INSTALLATION OF E-FORM FILLER

Prior to the installation of the E-Form Filler, please ensure your computer meets the system and software requirements. (Please refer to [Section 2](#) and [Section 3](#))
