

Occupational Health Clinic

Occupational Health Clinic

Objective

To enhance the health of the working population through prevention, diagnosis and treatment of work-related illnesses.

Client

Any worker who may have contracted work-related illnesses.

Services

- Diagnosis and treatment of work-related illnesses, as well as provision of occupational health counselling.
- Workplace inspection to assess health hazards in the working environment and recommend preventive and control measures.

- Enhance patients' awareness on occupational health through publications, video shows and display boards.
- Health talks and workshops to enhance clients' knowledge on occupational health and health hazards identification, thus to minimize their risk of contracting occupational diseases.
- Organize patient support groups to facilitate experience sharing and enhance mutual support among patients.
