*Pressure vessel examined under hydraulic test to a pressure of

.....
.....

Signature

Date

Fittings examined and found satisfactory.

Signature

Date

I certify that (i) I have this day examined the above pressure vessel under pressure and I am satisfied that it is in safe working order
and may be used at a maximum permissible working pressure of

subject to (here insert any conditions required under section 33(5) of the Ordinance)

(ii) that the safety valve has been set and sealed or otherwise adjusted in accordance with section 45 of the Ordinance.

This certificate will remain in force until

Date

**Boiler Inspector.
Air Receiver Inspector.

*Delete if not applicable.

Note: Unless an earlier examination is required in consequence of any condition endorsed on this certificate or by other requirements
of the Ordinance, the period of validity of this certificate shall be in accordance with section 27(1)(b) of the Boilers and Pressure
Vessels Ordinance.

WARNING You are reminded that the pressure vessel must be re-examined before the expiry of this certificate. It is an offence to use
or operate a pressure vessel (other than a pressurized fuel container) unless it has been examined and a certificate of
fitness issued after that examination. If convicted the penalty is a fine of up to \$50,000 (s. 49(1) and (8) of the Boilers and
Pressure Vessels Ordinance).
