

Work Safety Alert Struck to Death by a Collapsed I-beam

1. **Date of Accident :** December 2019
2. **Place of Accident :** A construction site
3. **Summary :**

A worker while cutting starter bars protruding from the floor was struck to death by a collapsed overhead metal I-beam which was being cut by another worker.

4. **Work Safety Alert for Contractors/ Employers :**

To prevent any workers/ employees from being struck by any structures or parts thereof being dismantled on a construction site, the contractors/ employers should provide and maintain a safe system of work which should include, but not limited to, the following:

- appointing a competent person to conduct task-specific risk assessments to identify all potential hazards associated with the work, taking into account the nature of work and the work environment, particularly the hazard of falling objects;
- formulating safe work methods and procedures for the work with due regard to the results of risk assessments, and following the requirements of safety legislation and guidelines;
- ensuring that no workers/ employees work, pass or stay underneath the structures and any parts thereof being dismantled;
- fencing off the area for the dismantling work as far as reasonably practicable with suitable warning notices displayed and adopting control measures to prevent any unauthorized entry into the fenced-off area;
- ensuring that the structures and any parts thereof being dismantled are

properly and securely supported and suspended to prevent any unintended movement;

- providing all workers/ employees concerned with necessary safety information, instruction and training, and ensuring that they are familiar with the safe work procedures and relevant safety measures; and
- establishing and implementing an effective monitoring and control system to ensure all safety measures are strictly followed.

DISCLAIMER

This Work Safety Alert (“the Alert”) is issued at the earliest possible opportunity after a serious accident with a view to drawing the attention of interested parties to the general safety precautionary measures necessary to protect people engaging in similar work activities. The material contained in the Alert constitutes general guidance only. It does not reduce, limit, or replace, any legal obligations upon any person to comply with any statutory duties under relevant legislation. Users such as Managers and Supervisors should make their own evaluation of the information contained in the Alert to determine if it can be applied to their own situations and practices. The Labour Department does NOT accept any responsibilities for any loss or damage resulting from the use of or failure to use of the information on the Alert.

Note: The material contained in the Alert is not exhaustive, and will be supplemented/ adjusted where necessary if more relevant information comes to light.
