

登記蒸汽鍋爐

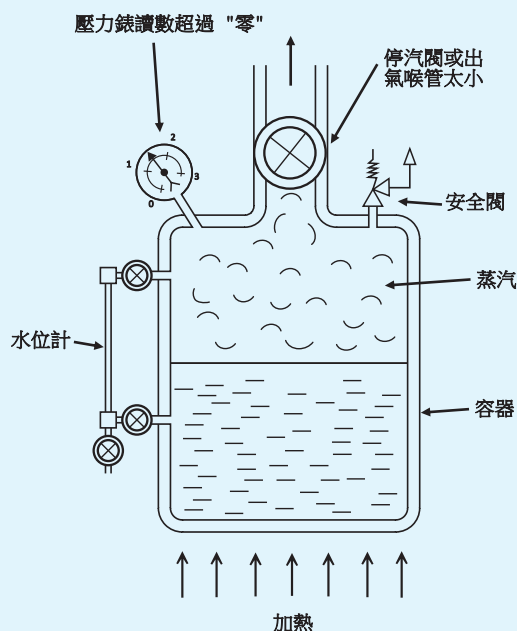

蒸汽鍋爐是一個產生蒸汽的密封容器，其蒸汽壓力高於大氣壓力。下圖描畫出一個典型蒸汽鍋爐的工作原理。

根據<<鍋爐及壓力容器條例>>(第 56 章)的規定，蒸汽鍋爐的擁有人*須於擬使用該蒸汽鍋爐日期前至少三十天向勞工處鍋爐及壓力容器科提出登記申請。此外，當使用蒸汽鍋爐前，它必須已接受鍋爐檢驗師的檢驗及獲他發出根據法例第 56 章的『效能良好證明書』，並由持有適當級別合格証書的合格人員在場直接監管其操作。一般而言，自行或經本地工場製造的蒸汽鍋爐未必能符合相關法例的規定。

違反上述法例的規定操作蒸汽鍋爐是非常危險，這樣不但可能導致生命及財產的損失，而擁有人即屬犯罪，可處罰款\$50,000。

Registration of Steam Boilers

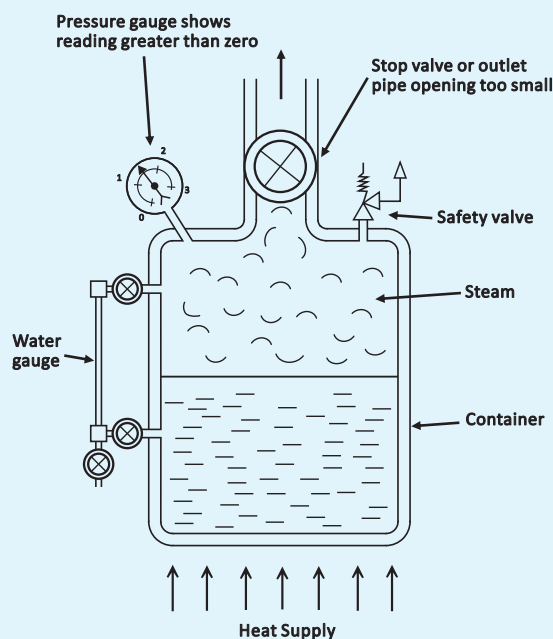

A steam boiler is a closed vessel in which steam is generated under pressure greater than atmospheric pressure. The diagram below indicates the working principle of a typical steam boiler.

Under the Boilers and Pressure Vessels Ordinance, Cap. 56, the owner* of a steam boiler shall, not less than 30 days preceding the day on which it is intended to be used, apply to the Boilers and Pressure Vessels Division of the Labour Department for registration. Before a steam boiler is put into use, it shall be examined by a boiler inspector and a Certificate of Fitness has been issued by him in accordance with Cap. 56. In addition, an appropriate class of competent person must be on-site to supervise its operation. In general, home-made steam boilers fabricated by local makers may not be able to comply with the relevant statutory requirements.

Failure to comply with the aforesaid statutory requirements in operating a steam boiler is dangerous and may result in loss of lives and properties. Moreover, the owner shall be guilty of an offence and shall be liable to a fine of \$50,000.

For enquiry, please contact:-

Working Principle of a Steam Boiler

Remarks: * Owner includes any person who is in possession of the boiler under an agreement of hire purchase or under a contract between a supplier of boilers, or the agent of any such supplier, and such person for the sale of the boiler, notwithstanding that the property in the boiler has not passed to such person. Where the owner of a boiler cannot be found or ascertained or is absent from Hong Kong or is under disability, this includes the agent of the owner.
