

# Occupational Health Clinic

## Early Diagnosis and Treatment - Work Efficiently

## Occupational Safety and Health Centre

## Occupational Health Clinic

### Objective

To enhance the health of the working population through prevention, diagnosis and treatment of occupational diseases, work injuries and work-related diseases including muscle pain

### Our Client

Any workers who suspected to have contracted occupational diseases, work injuries or work-related diseases

### Appointment Booking

- Telephone booking is simple, convenient and quick, and you can choose your appointment time
- No doctor referral needed

### Our Services

- Healthcare professionals will provide appropriate investigation, diagnosis and treatment through understanding your work and illness with active listening, and advise you on how to control the disease from the work perspective
- Workplace inspection to assess health hazards in the working environment and recommend preventive and control measures
- Enhance patients' awareness on occupational health through publications, display boards and video shows
- Introduce occupational health concept, occupational hazards and preventive measures to employees through health talks and workshops to minimise their risk of contracting occupational diseases
- Organise patient support groups to facilitate experience sharing and mutual support among patients
